◆ A Beginning in the Legend. The protagonist of the game is the Little Wizard Who Wishes for a Transformation, Tarnished, who was chosen by the God of Magic, Zaioc, as the incarnation to avert the impending doom of the world. With the appearance of Zaioc's benevolent sign, he realized the power of magic and decided to save the world. ◆ The Wandering Adventure. Upon opening, the game welcomes you with two choices: the World Tree or the World Tree Ruins. Players can choose a different path depending on the player's preferences: whether the player believes in magic or not, or whether they want a grand story or a simple, fun RPG. In addition, the world of the "little wizard" is a place full of magical power, where people's feelings and personalities are reflected in the various surroundings, and the narrative is broken up into various chapters. ◆ Making an Epic Drama out of the Several Chapters. In "The Roots of a Legend", a story of a human Tarnished, accompanied by his pet black cat, made his way to the "heart of magic". Then, in "The Weakness of Magic", he and his companions ran into the Phantom Beast Ushka. The story goes on to, "The Dark Vision" and "The Son of Earth", and many more. ◆ An Emotional Turn The characters have their own thoughts, and their actions continue to be guided by their feelings. If you get into a situation where you're unable to tell what your character is thinking or feeling, feel free to switch out your characters; you can experiment freely using the game's development tools. ◆ An Instinctive Feel of the Game The game has a solid foundation, but has many new features. From the scenario to the facial expressions, the game's development philosophy is to intuitively feel like a game that had been created with the prospect of being played in the future.
