## TOMB RAIDER Japanese Language To

One look at this one will tell you that you're looking at a quality hand held in Japan. It is targeted at the younger crowd than the original, which was a bit more "intellectual" or at least aimed at a more experienced gamer. . This little beauty boasts a feature-length anime inspired storyline featuring a girl named Lara Croft. It looks like she is climbing a very large mountain, and fighting with other monsters as well as being attacked by alien monsters. . A big feature of this new game is that it allows you to fight the game like a pro. You can move like Lara Croft, aim like a professional sniper, and basically anything the player can do in the game. . Lara's body will respond much more realistically to whatever you do. You can literally "kick" her in the gut to make her fall to the ground and hurt, or you can hit her above the waist and she'll "deflate". Lara's movements are fluid and responsive. . The combat options are pretty extensive. There are "delicate" attacks, "powerful" attacks, combo attacks, and even a melee attack. No moves are overpowered however, and most of them can be countered. . A big improvement over the previous games is that you can run while dodging attacks or even jump out of the way of a deadly attack. Enemies will follow and can be hit by the player, which is a new technique introduced for this game. . This game is more action oriented than any Tomb Raider game released so far. You'll be able to jump, run, climb, climb walls, run, jump, slide, swing, climb, fight in hand-to-hand combat, throw crates, pick up weapons, pick up weapons, climb, dual-wield weapons, throw, climb and much more. . The game is set in a very wild area of the world. There are big forests, hills, mountains and even a huge island which you have to climb to get into. I got lost many times while playing this one, but it's also something I find fun. . A huge big new improvement is the "Parkour" feature. Unlike before, you can go where you want. You don't have to follow the main path as long as you don't fall off of the edges. You can do side-slide into a wall, dangle from a tree branch, jump to a rock, climb a wall, leap 1cdb36666d
