original Japanese hit "JUJU" by Bandai Namco Entertainment. All the nine original gods, in addition to three new gods from another planet, will fight each other to satisfy the God of the Nine Steps. Playing as an ancient God which has been recognized for over 8000 years, you will use 3 types of physical punches, aerial kicks and an energy attack to devastate your enemy. Your basic attack will automatically counter enemy attack. The nine original gods are: JUNGLE SHAMAN A powerful tribal chief who wields the power of the Earth. BLOOD WITCH A tribal shaman who is stronger in physical strength than any other in the world. CRIMSON SHINING SWORD A sword style warrior who has full knowledge of a sword. EARTH FERRET An earth spirit resembling a real animal, she is powerful but cares little for oneself. RAVEN OF GASH A raven with the power of prophecy. SWALLOW GATE An old tribal shaman who wields the power of the water. SERPENT KING A snake spirit with powerful regeneration and a small amount of magic. WOLF GORILLA A wolf like tribal chief who possesses a mastery of the countryside. SPECIAL ATTACK At the end of a battle, you can perform special attacks by performing special button combinations. Each character has a unique skill-set which is often used as a counterattack against the enemy's special attack. Climbing, jumping, and cartwheeling are essential to the game. Since your skill is limited, you will have to plan the most effective special attack depending on the situation. The side-view features a blast map that highlights the location of the enemy's attacks. If an attack exceeds the blast map, this will trigger a counterattack and cause enemies to use a follow-up attack. Whether you are a skilled warrior or a humble hunter, there is always a new enemy waiting to challenge you. "Jungle Gods" not only features a variety of types of fight scenes but the battle system also includes several new unique features. "Jungle Gods" has an online bff6bb2d33
